

## OUR VISION

Rural communities have health services fit for their communities

## OUR MISSION

Own and operate vital services in rural communities through a regenerative model

Giving power back to rural communities

## STRATEGIC PRIORITIES

Support primary health care to advance health

Promote the management and prevention of illness and disease

Save or create key services and enterprises to benefit the health and welfare of the Bega Valley and other rural communities

Support the current and future primary health care workforce

## HOW WE'LL ACHIEVE THEM

Own and operate healthcare services

Provide community health services focused on the needs of the community

Through a purpose built social enterprise not for profit regenerative model based on good governance

Provide a working environment and conditions which attract and retain a multidisciplinary rural health workforce

## TARGET

- Develop and pilot an innovative viable model of accessible healthcare to meet the needs of rural communities
- Expand access to allied health services for the of the Bega Valley Shire
- Establish strong collaborative partnerships with community services and the community

- Deliver community health programs focused on mental health, nutrition, chronic disease management and other health protective measures
- Deliver early intervention health care programs
- Partner with other organisations to deliver health promotion programs

- Develop a Board of local professional skilled Directors with skills in governance, governance, clinical health, and other suitable expertise
- Establish community steering committee to support community input into decisions and to support fundraising efforts
- Establish a clinical advisory committee to provide advice on clinical governance processes and systems

- Provide flexible working conditions
- Support employees with further training or studies
- Provide salary packages for healthcare practitioners and staff
- Encourage and facilitate integration across primary, secondary and tertiary health care

## SUCCESS LOOKS LIKE

- Pilot an innovative viable health service to enhance access to healthcare in the Bega Valley

- Health promotion programs are delivered across the Bega Valley and other rural areas
- Community members have increased knowledge and actively use protective measure to prevent illness and disease

- An organisation governed by local skilled community members
- Profits generated are used to support vital health services for the community

- Attract and retain a healthcare workforce to meet the need of the community
- Be an employer of choice
